

A Commitment to Excellence that Spans Five Decades

With highly skilled therapists and dedication to clinical excellence, our Outpatient Rehabilitation Center offers a range of services from a single therapy treatment to a comprehensive, interdisciplinary rehabilitation program

Our team of licensed physical, occupational and speech therapists perform comprehensive evaluations to design individualized and highly effective treatment plans.

We utilize an array evidence-based techniques, including hands-on treatment, therapeutic exercises, and modalities to ensure we get you back to the life you know and love.

Reach Your MAXIMUM POTENTIAL

With Our Evidence-Based
Approach, Expert Therapists &
Cutting-Edge Technology

We effectively restore strength, improve range of motion and function, and reduce pain for those suffering from orthopedic conditions.

Our clients successfully achieve reduced spine, joint, and muscular pain, as well as improved balance, regained mobility and upper extremity function.

Our experienced and compassionate therapists have advanced skills and experience in a variety of orthopedic, medical, and neurologic conditions.

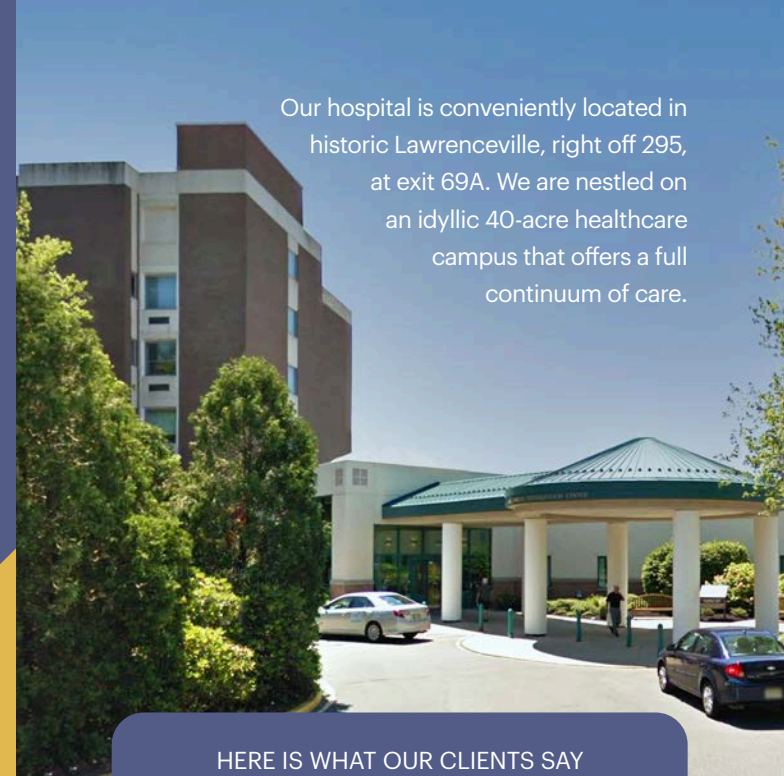

Conditions Treated:

- Balance and gait disorders
- Orthopedic conditions including osteoarthritis, sprains and strains
- Neck and back pain including stenosis and disc disorders
- Residual effects of stroke
- Peripheral neuropathy and nerve injuries
- Vestibular disorders
- Concussion and brain injury
- Multiple sclerosis, Parkinson's disease and other neurologic conditions

Our Outpatient Services Include:

- Physical therapy addressing orthopedic and neurological conditions
- Occupational therapy
- Speech therapy
- Vision therapy
- Language, voice, and cognitive training
- Stroke and neurologic rehabilitation
- Vestibular rehabilitation and balance program
- Concussion rehabilitation
- Driver rehabilitation
- Amputee program
- Dysphagia treatment program

Our hospital is conveniently located in historic Lawrenceville, right off 295, at exit 69A. We are nestled on an idyllic 40-acre healthcare campus that offers a full continuum of care.

HERE IS WHAT OUR CLIENTS SAY about our rehabilitation services and dedicated team of professionals:

“

Lawrence Rehab Outpatient is excellent. My PT was a knowledgeable and highly trained healthcare professional who really helped me get results, even when I was in a lot of pain at the beginning. They run the place efficiently, you're in and out on time, and the most is made of your time. It's a real rehab – I highly recommend them.

– Maryellen C., Orthopedic Client

Staff are attentive, compassionate, dedicated, and highly skilled. They truly create an atmosphere of acceptance. I received feedback daily and my progress was always recorded and reported to my doctor. I am so thankful for my recovery”

– Joyce P., Neurologic Therapy Client

The outpatient team at Lawrence Rehab was knowledgeable and caring in treating my vestibular and vision issues. I felt that they understood what I was experiencing and used their expertise to find the best path to recovery. I am grateful for their time and patience.

– Diane R., Vestibular Rehabilitation Client

The Outpatient Rehabilitation Center at Lawrence Rehabilitation Hospital is your trusted healthcare resource and has a long history of providing therapy with expert knowledge base, kindness, and attention to detail

”
